

RH1600 RESPONDER PARTS LIST

MNSTAR PATENTED TECHNOLOGY

Recommended Application: Battery Under the Hood - Trunk mounted CenCom amplifier.

PART #	DESCRIPTION	NOTES
RH1600	Responder Harness - Trunk Mounted CenCom with Strobe Cables	Wire Harness for a Whelen CenCom amplifier mounted in the trunk with 2 strobe cables to front corners. Includes 100 Amp. Main Power Feed with Master Switch

Recommended Responder Kit: Provides Clean Professional Installation with room for future growth.

RH1600	Responder Harness - Trunk Mounted CenCom with Strobe Cables	Wire Harness for a Whelen CenCom amplifier mounted in the trunk with 2 strobe cables to front corners. Includes 100 Amp. Main Power Feed with Master Switch
RP35	Power Distribution Center	35 Fuse output relay and fuse panel for CenCom.
00-1278	Grill Lights 2-Wire Conn. Kit	Kit containing sealed connectors and terminals for two wire grill lights.
00-1279	Siren Speaker Conn. Kit	Kit containing sealed connector and terminals for siren speaker.
DR33	Programmable Delay Timer	Dual timers built into one. One timer with two 25 amp circuits with 2-4 hour timed disconnect for MDT, radio, laptop, etc. and one timer with a 5 amp circuit with 8-10 hour timed disconnect for portable radio, flashlight, etc.
00-1283	Video Connector Kit	Kit containing connector and terminals for video camera.
00-1451	C9 & C38 Dash & Side Light Conn. Kit	Kit containing connectors and terminals to add dash, mirror, side lights.
00-1376	Gunlock Harness	Cable for gun lock with connector kit 00-1282.
00-1282	Accessory Connector Kit	Kit containing connector & terminals for gunlock, dome lt, dash lt, etc.
00-1077	Lightbar C6 Connector Kit	Kit containing connectors and terminals for lightbar conn. C6.
00-1280	Flasher Connector Kit	Kit containing connector and terminals for flasher.
00-1605	Trunk Lid Warning Light Harness	Harness to attach warning lights on underside of trunk lid. No connectors.

Power Source - Designed for use at the Battery.

PF-CT	Protector Battery Feed Cable	A 98" battery cable extension - 4 ga. power and ground from driver-side battery to the passenger-side of engine compartment.
-------	------------------------------	--

Master Switch Options - For Main Power Disconnect and Service Cut-Offs.

00-1447	Master Switch (High Temp)	Manual master switch for high temperature environments.
10-1421	Master Relay 200 Amp	200 amp solenoid or relay to switch emergency system power on and off.

Siren Speaker Options

00-1375	Siren Speaker 2 Cable	Cable for Second Grill Speaker with speaker connector kit 00-1279.
00-1279	Siren Speaker Conn. Kit	Kit containing sealed connector and terminals for siren speaker.

Console Options

DR29	Diode Adapter 6amp	The DR29 Diode Adapter will allow two separate switch inputs to operate one output or light. Rated for 6 amps.
DR33	Programmable Delay Timer	Dual timers built into one. One timer with two 25 amp circuits with 2-4 hour timed disconnect for MDT, radio, laptop, etc. and one timer with a 5 amp circuit with 8-10 hour timed disconnect for portable radio, flashlight, etc.
DR33-C	Program Delay Timer with Connector	Dual timers built into one. One timer with two 25 amp circuits with 2-4 hour timed disconnect for MDT, radio, laptop, etc. and one timer with a 5 amp circuit with 8-10 hour timed disconnect for portable radio, flashlight, etc with plug & play connector.
00-1056	Connector Kit for attaching DR33-C Timer	Kit containing connector and terminals for attaching DR33-C delay timer.
00-1138	Console Power Port	Two panel mount power outlets to mount on console for radar, inverter etc.
00-1169	Heavy Duty Foot Switch	Momentary foot switch mounted under carpet for gun locks, push to talk, or hands free horn ring.

Gunlock Options

00-1376	Gunlock Harness	Cable for gun lock with lock connector kit 00-1282.
00-1282	Accessory Connector Kit	Kit containing connector & terminals for gunlock, dome lt, dash lt, deck lt, etc.
00-1378	Rear Gunlock Harness	gunlock.

Rear Options

00-1282	Accessory Connector Kit	Kit containing connector & terminals for gunlock, dome lt, dash lt, deck lt, etc.
00-1446	Power Stud Panel	Covered power panel with 4 Power and Ground Studs to distribute power and ground using Mnstar battery feed cables.
00-1605	Trunk Lid Warning Light Harness	Harness to attach warning lights on underside of trunk lid. No connectors.

Technicians Installation and Service Kit

00-1345	Responder Service Kit	Kit containing all connectors, terminals and removal tools for Responder series harnesses. Individual components may be refilled in bulk and labeled for quick re-order. Components and Connectors are chosen to ensure the highest quality of Installation.
